Passenger Train Crashes Into Rear End of a Freight East of Tiskilwa.

Their Condition Cannot Be Learned for Hours, as Wrecking Party Is Slow in Arriving.

DOCTORS HURRY TO SCENE.

Force of Collision Throws Persons in All Directions, Eight Being Hurled From Coaches Into a Cornfield.

REPUBLIC SPECIAL.
Princeton, BL. Sept. 7.- The Kansas City ist passenger train on the Chicago, Rock land and Pacific Railroad was wrecked e-half mile east of. Tiskilwa at \$:06 o-night and more than thirty persons were badly injured, two of whom have since died.

The name of only one of the dead has been learned so far. It is Donaldson, supposed to be from Chicago.

An unidentified Italian died on the way to the Tiskilwa Hotel. Another unidentified man, about 25 years old, bound for Taylor, Ia., died on the train on which he was being taken to a

hotel in La Salle. Others are penned under the wrecked passenger conches, and as yet have not been resche

The passenger train collided with the rear end of a freight train that had broken in two. The engineer escaped injury and the fireman was seriously burt.

Half a dozen passenger cars were wrecked, and the persons thrown in every direction, eight landing in a cornfield at one side of the track,

creased, as at 2:30 this morning there were fit least two bodies under the wreck. There are a dozen injured passengers a Tiskiiwa, some of them at the depot and some at the hotel, where they were taken

It is impossible to secure their names or South Chicago, is known to be badly

Several of those burt did not sustain injuries serious enough to necessitate re-moval to a hospital, and they will be able to continue their journey as soon as the wreck has been cleared.

HOW THE WRECK OCCURRED. The wreck was caused by a peculiar ac rident. On the eastbound track a freight train was bowling along at a good guit

Meantime, the fast passenger train, which was behind time and was making sixty-seven miles an hour, was nearing this city on the westbound track.

As the trains approached each other, in some way not yet ascertained, the freight train broke in two. The two sections of the freight came together again, almost ately, with a crash, and at once the freight cars were piled up in a promiscuous mass, several of the box cars completely covering the track on which the passenger train was running. ineer Cropper of the fast train only

had time to see that a wreck was un-avoidable-he had no time to prevent it. When the fast running engine hit the creck it turned over completely and landed in a ditch. The baggage car, noker and chair car were converted into kindling wood, and the fact that all the cupants of these cars were not killed

REPUBLIC SPECIAL.

New York, Sept. 7.-President Rossevelt and his administration were bitterly as-sailed to-night at a banquet given by the Democratic National Committee to the Democratic editors of the country, in the grand ballroom of the Walderf-Asteria

More than 500 guests listened to speeches by Henry Watterson, who responded to the toast, "The Issue and the Outthe toas, the issue and the Out-look"; Clark Howell, of the Atlanta Constitution, who spoke on "Demo-crafic Success—the Surest Guaranty of National Unity"; Herman Ridder of the New York Staats Zeitung, who explained "Why Independents Will Support Parker and Davis"; Willis J. Abbot, who spoke on "The Triumphant Democracy"; John B. Stoll, who told "Why We Want to Get In," and Andrew McLean, who responded to "The Democrats of the Em-

At the speakers' table to-night were S. E. Johnson, toastmaster; Thomas Taggart, chairman of the Democratic National Committee; Cord Meyer, chairman of the New York State Committee; Senator P. H. McCarrer, William F. Sheehan, Delancey Nicoll, George Foster Peabody Henry Watterson, Charles W. Knapp. Clark Howell, R. M. Johnson, Urey Woodson, Norman E. Mack, Andrew McLean. Herman Ridder, John B. Stoll, Willis J.

Abbot and Josephus Daniels, ENTHUSIASM FOR PARKER. When Mr. Watterson was introduced by the toastmaster, a prolonged burst of applause greeted him. He aroused enthslasm by predicting a sweeping victory for Par-ker, whom he described as an eminent expounder of the Constitution.

He referred to President Roosevelt as "a gentleman as sweet as ever scuttled EAST SIDE STRIKERS a ship or cut a throat"; as "a self-willed adventurer upon the seas of political life"; a "recreant Civil-Service reformer"; "a Many of the injured have been taken to man-who would go to war with another

He lauded Judge Parker and praised his record and that of the Democracy. Every mention of Parker's name was a signal for uproarlous cheering. The mention of the name of Grover Cleveland evoked as much applause as the mention of that of Parker, Mr. Watterson said:

"I believe we can win this presidential battle. I will go even further, and say that, with anything like an even showdown of powder and bail, it will be our own fault if we lose it."

Clark Howell, editor of the Atlanta the exact nature of their injuries. It is reported that several are fatally hurt. the toast, "Democratic Success the Surest Guarantee of the National Unity." He said, in part:

SECTIONAL ANIMUS. "Disguise it as they may, the Repub-licans cannot deny the sectional animus of their party purposes, nor evade the record of their administration in its unjust and ungenerous dealings with the South in the matter of Federal appointments and in the brutal and indefensible manner in which their President has raised the lid of the radical Pandora's box-that our people,

black and white, may be tormented with the devils that have emerged from it. "I speak the sentiment of the South to-day-the New South, if you will-when I tell you that the mistaken attitude of the Republican President has done more to theck the real progress of the negro than all else that has been done since the war. His stubborn disregard of the advice of even his own party referees in the States affected, in his mad determination that white constituencies should be served by

negro office-holders-exclusively in the South, for it would be repudiated in the North-has rekindled the slumbering em bers of racial hostility to a degree that has not been known since the days of reconstruction. Was it necessary? Let them ask the memory of their martyred Mc Kinley, who, twice honored with the presidency, died with South and North kneeling at his bedside, uniting their prayers

that God might spare his life. "All the South asks is to deal with this question as its conscience and judgment question as its conscience and judgment dictate, and we pledge that the solution will be for the best of all concerned. Eliminate the race question as a political issue and you have put the capstone on the pyramid of national unity."

To-morrow the editors will go to Esopus to visit Judge Parker. The Democratic standard-bearer will then make his first speech since his formal acceptance of the nomination, in response to an address on behalf of the editors by Charles W. Knapp of St. Louis.

Five Hundred Guests of National Strikers at Last Moment Decide They Do Not Like Packers' Terms.

> Chicago, Sept. 7.-The strikers having what the next move shall be.

When the result of the vote of the men, defeating the propostion to return to work, was announced to-day, it was stated by the union officials that a second ballot would be ordered at once. Shortly after the plan was abandoned, and efforts were begun to secure another conference with the packers.

In this the strikers were unsuccessful. and then a second aunouncement was made that the order issued last week piacing all meat on the unfair list, would go into effect to-night.

While arrangements were being made to put this order into effect, it was suddenly discovered by some of the leaders that the Alifed Trades' Conference Board would have to give its consent to the order before it could be enforced, and that it would be impossible to put the manifesto into effect to-night, as the Allied Trades Conference Board would not be able to arrange for a meeting of its members until to-morrow. It was stated that the central organization would meet to-morrow at II a. m. to consider the question,

Following the announcement that the voters had voted to continue the strike, a meeting, attended by representatives of all the packers, was held at the offices of the National Packing Company. What took place at the conference is not known, but after the meeting it was stated by one of the packers that no opportunity would be given the labor leaders to prement a proposition embracing arbitration. as was being planned by the strikers,

VOTE TO STAY OUT.

Meat Cutters Decide to Support President Donnelly at Meeting in

Packing-house strikers yesterday after-noon in mass meeting in East St. Louis City Hall voted to stand by the action of President Donnelly, who wired them that by the referendum vote it had been de-cided to continue the strike, although the East Side strikers, by a vote of 1.760 to 511, had voted on Tuesday to put an end

Donnelly's telegram stated that the referendum vote was in favor of continuing the strike, that a counter proposal would be submitted, and that the East St. Louis strikers would be informed of the next move. Just what the proposition is or who will submit it is not known.

East Side strikers are strong in their support of President Donnely and the na tional officers of the Amalgamated Association of Meat Cutters and Butcher Workmen of North America. They rely implicitly on him, and many of them de-ciared yesterday that they had voted to end the strike Tuesday, because they understood that it was his desire that they

should vote that way. Those who would like to see the strike ended were disappointed yesterday when they learned that the strikers had decided against a settlement and of the affirmative action taken by the East St. Louis organization.

At the packing-houses it was said that At the packing-houses it was said that 196 men in all had applied for their old positions yesterday morning and had been taken back to work. Hundreds of the men feit positive that they would get word from Chicago that the strike was off and that they were free to go back to work.

Officers of the East St. Louis union declare that none of their men returned to work. It was said last night that some of those who returned to work would not go back this morning.

All of the plants at the Stock Yards are being operated to their capacity, it is said. Nearly 2,956 men are employed in the three packing-houses.

The charge that Street Commissioner Varrelmann gave permission to discon-tinue the use of gates at the point where seven persons were killed was made by George Bames of No. 4252 Russell avenue, a Wabash special service man, who said he had a letter to that effect. Street Commissioner Varrelmann at pres-

Those who appeared were Patrick Sheehan, conductor of the Suburban car that was wrecked; Arthur W. Burbank, engineer of the Wabash locomotive; Flagman James Welse and Watchman Fred Uetz. All are under heavy bond. Motorman Cook is still confined to his bed from injuries sustained in the accident.

CIRCUIT COURT TO TRY BULLFIGHTERS

Judge McElhinney Issues Summons for a Special Petit Jury-Case Comes Up Monday.

In order that the question might be fairly tested in a court of record, it was agreed yesterday between Prosecuting Attorney Johnston of St. Louis County and Senator B. L. Matthews, attorney for the builfighters arrested by Sheriff Hencken Tuesday night, to try the cases in the Clayton Circuit Court Instead of the tribunal of Justice I. W. Campbell on the

The trial will be held next Monday, and Attorney General Crow has been requested to assist in the prosecution. A summons for a special petit jury was issued yesterday by Judge McElhinney

The fighters, Felix Roberts, Enrique Acuna and Lorento Gordito, appeared in Campbell court at No. 500 Olive street yesterday afternoon at 2 o'clock, only to be informed that their cases had been continued for one week. Later in the aft-ernoon Prosecuting Attorney Johnston filed information against the defendants in the Circuit Court, and the cases in the Justice Court will be dismissed.

Roberts, Acuna and Gordito appeared in the Circuit Court and gave bond in the sum of \$300 each. Fred Essen qualified as their surety. The information charges them with baiting and fighting bulls. The offense is a misdemeanor.

Senator Matthews requested that the cases be tried in the Circuit Court before a jury, where the question of whether the exhibitions that are being given just west of "Dreamland," on the Skinker road are within or without the pale of the law can be fairly tested. The promoters of the fight declare that they have been advised by some of the leading lawyers in St. Louis that there has been no violation of the law. They say that if it is officially decided that the law is not being observed they will stop the exhibitions.

FOLK AT ELDORADO SPRINGS. Many Republicans Promise to Vote for Him.

REPUBLIC SPECIAL. Eldorado Springs, Mo., Sept. 7.-Joseph W. Polk, Democratic candidate for Governor, to-day addressed one of the largest gatherings of Democrats in Spring Park ever seen in this city.

His recital of the history of boodling in

St. Louis and Jefferson City and his caus-

tic denunciation in general of corruption in office and his expressed determination, if elected Governor, to drive the boodlers from the State aroused great enthusiasm. At the end of his address he held a re-ception, during which several thousand people grasped his hand and wished him success.

Among these it was noticeable that many Republicans expressed a determination to vote for him. William Boker, a prominent lawyer of Newada, and J. B. Johnson, candidate for Circuit Judge in the Twenty-sixth Judicial District, both made addresses in the forenoon. It was estimated that fully the persons not proposed.

KUROPATKIN IS AT MUKDEN. BUT MAY NOT STAY THERE; FIGHTING AT PORT ARTHUR.

General Staff at St. Petersburg Professes to Believe That Manchurian Army Is Out of Danger-Next Stand May Be Made Forty Miles North of Mukden at Tieling.

BESIEGED RUSSIANS FORCED TO MAKE EXCESSIVE SACRIFICE

Reports concerning General Kuropatkin's action are meager and contradictory, but it appears certain that the commander and the principal part of his army have arrived at Mukden, According to a dispatch from St. Petersburg the forces are being disposed around Mukden in prepared positions, as if to make a stand. A disputch from Mukden, dated Tuesday, says the amin army pushing northward is evacanting Mukden. It is suggested that the truth lies between these two reports-that part of the troops are being disposed around the city for one of Kuropatkin's famous "screens," while the bulk of the army is hurried on to Tieling, forty miles further north, where there are stores and fortifications. The general sinff at St. Petersburg professes to believe that the army is safe.

The Tokio Government is withholding late reports concerning the movements of the army under Field Marshal Oyama, possibly the better to conceal its purpose.

The sound of cannonading at Port Arthur was heard at Che-Foo again last night. The Russians in the fortress expected a general attack yes-terday, and the firing may mean that this has begun. Reports of the fightthis has begun. The members also decline to say, even if they know, whether General Kuropat-kin purposes taking his army north of Mukden. An officer of the General Staff said to the Associated Fress Wednesday

"I believe it is safe to say that General Kurepatkin's army is now out of danger. FIRING AT PORT ARTHUR MAY INDICATE GENERAL ASSAULT BY JAPANESE.

Chefoo, Sept. 7.-Firing to the direction of Port Arthur was heard here indistinctly this evening. It may indicate that the general attack expected by the Russians

to-day, has begun. It is now apparent that the heavy fighting reported by numerous Chinese refugees as having occurred before Port Arthur between August 27 and 31 octioned, the Japanese thereafter directing their efforts almost entirely to holding the positions they had obtained.

That these postions were of considerable importance is evidenced by the fact that the Russians risked the lives of valuable men in the open fight in their efforts to dislodge the Japanese from them. As has been previously reported in these dispatches, the Japanese troops retired from nearly all points on the night of August

SUBURBAN CARS IN COLLISION. Woman Hurt in Accident-Motormen Try to Make Crossing. Two Suburban cars collided at the Union boulevard crossing at 7 o'clock last night and, although they crashed together with great force, only one passenger was slight-

ly injured.

Iy injured.

The eastbound car, crowded with theatergoers, approached the crossing at the same
time as a northbound Union car did.
Through a misunderstanding both motormen tried to cross.

The eastbound car crashed into the front
platform of the northbound coach, wrecking the front platforms of both cars and
throwing the passengers from their seats.
Many persons tried to jump through the
windows.

Mrs. William F. Dorfmeyer of No. 5233
